Dear Author

1. Please check your grammar again (Abstract and Introduction)
2. Please do not tilt the text (Italic)
3. Introduction Still not getting the title, please install National Border Communication Behavior, especially in the Riau Islands, Indonesia
4. At sub-C, you are about mean-shift which is still too short, please explain what mean-shift relationship with moving objects ??
5. Fig. 1. Please provide your source of origin
6. In Results, please explain in detail in the sub-chapter, Meanshift The results of the relationship between figure 2, picture 3, and 4 that you produce
7. Discussion and results that are not done at all, you must describe in more detail

Regards

This research is very interesting and few have researched in this case, the research methodology combines quantitative with a qualitative social approach, but the paper has not explored the stages of how to discuss methodology in detail. Contributions and problem statements are quite clear
